

Environmental Health & Safety Policy

The protection of our Environment and the Health and Safety of our stakeholders is a Core Value of Myriant Corporation. We recognize that people are our most important asset and we shall devote ourselves to the protection of employees, contractors and other essential people in the Myriant supply chain.

WORKPLACE SAFETY

All Myriant locations embrace the goal of Zero Injury Incidents and continuously improving our health and safety performance through education and promoting a culture of safe behavior at work, home and in our communities. Our chemical processes are thoughtfully designed and continuously improved to minimize risk, improve efficiency, and reduce waste and emissions. Myriant is also fully committed to complying with all relevant laws and regulations to embrace these goals.

RESPONSIBLE CARE®

Myriant is committed to the principles and practices promoted by American Chemistry Council Responsible Care Initiative. We firmly believe that Chemistry, when practiced responsibly, improves lives in many ways. As a company we have pledged resources to implement and sustain a robust Responsible Care Management System (RCMS). Due to our commitment, we will remain up to date on new legislation and regulations impacting the Environment, Health and Safety of our stakeholders. We also pledge our ongoing review and risk assessment of our practices to ensure continuous improvement.

SECURITY

As an ACC member or Responsible Care Partner, our company has implemented a management system based upon the Responsible Care Security Code. In accordance with the principles of Responsible Care, we will continuously seek to improve our processes and systems related to security performance and implement management practices consistent with the Security Code.

LEADERSHIP

Our Board of Directors and leadership team endorses and promotes Myriant's commitment to improve environmental, health and safety (EHS) performance. We educate our employees, allocate resources and measure performance of the initiatives for EHS improvement.

ENVIRONMENT

A core value at Myriant is making our environment safe and healthy. Our facilities including office, laboratory, and manufacturing locations meet and strive to exceed all environmental regulations. We investigate ways to reduce, reuse and recycle. Our goal is to reduce energy consumption and emissions through continuous improvement of processes and systems operations.

COMMUNICATION

Myriant recognizes its diverse stakeholders including employees, suppliers, customers, and subcontractors. Effective communication with our stakeholders is an essential element of our EHS and RCMS programs. We will communicate product, service and process risks to our stakeholders and respect and evaluate feedback. Our internal processes continue to support the communication of our commitment to Environment, Health and Safety through our Core Values, Employee Handbook, Corporate Goals, Training and Performance Review Process.

Sincerely,

CENAN OZMERAL, PH.D.
President & CEO
Myriant Corporation

CORE VALUE # 1

Effective Date: March 17, 2015

Making our Environment Safe and Healthy
